I am a retired soldier looking to pursue a rewarding career as a Web Developer.

## EXPERIENCE

**2019 – 2020**

**VETERINARY/KENNEL TECHNICIAN, CEDAR ANIMAL HOSPITAL**

Relevant responsibilities compatible to web development are working in a group, quick critical thinking, and understanding new language.

**2016 – 2018**

**HUMAN INTELLIGENCE COLLECTOR, US ARMY**

As a soldier in the intelligence field, my responsibilities were: handling difficult situations; responding to stressful environments; taking orders from superiors; validating known intelligence with data from other sources; gathering, analyzing, correlating, and evaluating information from a variety of resources; and studying foreign languages to translate intelligence.

**SEASONAL FALL 2015 – 2015**

**SALES SUPERVISOR, SPIRIT HALLOWEEN**

While working as supervisor, I worked in customer service, handling difficult customers, planning and directing staff, training, and performance evaluations to develop and control sales.

**2014 – 2015**

**SALES ASSOCIATE, OSHKOSH AND CARTERS**

As a sales associate, my job responsibilities that would benefit my career as a web developer are customer service, responding to stressful situations, and resolving conflict.

**SEASONAL FALL 2011 – SEASONAL FALL 2014**

**SALES ASSOCIATE, SPIRIT HALLOWEEN**

Similar to my responsibilities in the job mentioned above, I learned how to assist customers with their needs, respond to difficult situations, and resolve conflicts.

**2016 – 2018**

**HUMAN INTELLIGENCE COLLECTOR, US ARMY**

As a soldier in the intelligence field, my responsibilities were: handling difficult situations; responding to stressful environments; taking orders from superiors; validating known intelligence with data from other sources; gathering, analyzing, correlating, and evaluating information from a variety of resources; and studying foreign languages to translate intelligence.

## EDUCATION

**NOVEMBER 2020**

**FULL STACK WEB DEVELOPMENT**, GEORGIA INSTITUTE OF TECHNOLOGY

I received a certification for Full Stack Flex Web Development in the Georgia Technical school's Coding Boot Camp. In the course I learned JavaScript, Node.js, MySQL, how to react a MERN application, CSS, and HTML.

**JUNE 2018**

**DIPLOMA FOR TAGALOG**, DEFENSE LANGUAGE INSTITUTE

While in the US Army, I spent a year learning the foreign language of Tagalog and proving my skill in quick language learning and adaptivity.

**FEBRUARY 2017**

**DIPLOMA FOR HUMAN INTELLIGENCE COLLECTOR**, HUMAN INTELLIGENCE COLLECTOR COURSE

While in the US Army, I trained in Fort Huachuca, Arizona and earned my diploma as an intelligence collector with a high rank in my class.

**OCTOBER 2016**

**BASIC COMBAT TRAINING**, BCT

I began my career in the US Army by completing Basic Combat Training in Fort Sill, Oklahoma, pushing through stressful and quick paced environments and working as a team with my fellow soldiers.

**MAY 2013**

**DIPLOMA**, RICHMOND HILL HIGH SCHOOL

I graduated high school in Richmond Hill, GA.

## SKILLS

- Front-End
- HTML/CSS
- Back-end basics
- Debugging
- React.js
- JavaScript
- jQuery
- MySQL
- Node.js
- Working in a group

## ACTIVITIES

I enjoy learning new languages very much, and I know English, Spanish, and Tagalog. I have a very creative mind and enjoy working Front End on websites the most so that I can use my artistic mind to its fullest. I am a optimistic person and will do my best to keep the environment positive.
